

## Preventive Measures for Travelers Arriving to Saudi Arabia during COVID-19 Pandemic

### **Before travelling:**

All of whom intend to travel to Saudi Arabia are required to comply with the following:

1. If a person who intend to travel to Saudi Arabia was diagnosed with COVID-19 or was in contact with a person diagnosed with COVID-19, he/she should declare to health authorities at their country, and not to travel until 14 days after diagnosis or last contact. Violations are subject for prosecution under (Health Control at Points of Entry Regulation). They would be subjected to fines not exceeding (500,000) Saudi Riyals, and held accountable to consequences of their violation on others.
2. Perform COVID-19 PCR within the timeframe assigned by Saudi Arabia, and test result is proof of COVID-19 clearance. Violators will be denied entry to Saudi Arabia.

### **Upon arrival:**

1. If respiratory symptoms (fever, cough, shortness of breath) are present, declare to Health Control Centers.
2. Sign documents required by health authorities and submit to relevant authority at point of entry.
3. Download and register to applications required by health authorities.
4. Violations are subject for prosecution under (Health Control at Points of Entry Regulation). They would be subjected to fines not exceeding (500,000) Saudi Riyals, and held accountable to consequences of their violation on others.

### **After entry:**

1. Comply with isolation/quarantine according to time and location decided and mentioned in documents signed by traveler, update health status and report symptoms to health authorities.

## وزارة الصحة Ministry of Health

Violations of isolation/quarantine requirements are subjected to penalty not exceeding (200,000) Saudi Riyals or imprisonment for upto 2 years, or both. Repeated violations are subject to doubled penalties.

2. Comply with preventive measures after completion of isolation/quarantine period:
  - Social distancing and violation of preventive measures is penalized by (1,000) Saudi Riyals, including not using face-masks, not maintaining social distancing, refusing temperature screening at entrance to public or private facilities, and not complying with assigned protocols for persons with fever. Penalties are doubled when violations are repeated.
  - Avoid large gatherings and not to invite to such gatherings. Violations are penalized by (10,000) Saudi Riyals. Penalties are doubled when violations are repeated.
  - Maintain hand washing with soap and water and sanitization.
3. Request healthcare when symptoms suggestive of infection appear, by calling health authorities on 937 and comply with preventive measures to protect the public.
